

# 040 - TYPECASTING IN C

Typecasting allows us to convert one data type into other.

In C language, we use cast operator for typecasting which is denoted by (type).

TYPE CASTING SYNTAX :-

```
data_type variable_name = (desired_data_type)
                           (value or expression);
```
